CLYNO DARK

DEEP TOUCH
PRO

4 FACES

This design embodies the raw, architectural elegance of natural conglomerate stone, brought to life through advanced Deep Touch (Shaper) technology. By perfectly synchronizing the digital graphic with physical relief, the surface moves beyond a mere visual replica to offer a hyper-realistic tactile experience. Every pebble and mineral fragment embedded in the grey matrix is matched with a corresponding depth and texture, creating a multi-sensory slab that authentically blurs the line between manufactured ceramic and the organic imperfections of nature.

ENGINEERED SURFACES

CLYNO DARK

The Bold Depth of Modern Minimalism.

Suitable Environments

- Corporate Lobbies & Atriums: As seen in the image, the large format (120x120) creates a seamless, expansive look perfect for grand entrances and high-traffic commercial areas.
- Executive Offices: The deep, anthracite tone conveys authority, stability, and a sleek professional atmosphere.
- Luxury Retail Showrooms: The dark, matte background provides high contrast, allowing products and merchandise to stand out vividly.
- Modern Restaurants & Hotels: Ideally suited for hospitality due to its ability to hide footprints and create an intimate, chic mood.
- Spacious Living Areas: Perfect for industrial-style lofts or open-concept homes seeking a contemporary concrete aesthetic.

Clyno Light reinterprets the timeless charm of sedimentary stone with a luminous, airy palette. The soft, pale grey background is punctuated by delicate mineral fragments, creating a surface that feels both organic and refined. Enhanced by Deep Touch Pro technology, the tactile relief perfectly traces the visual texture, offering a sensory experience that brings the serene beauty of natural stone into modern interiors.

ENGINEERED SURFACES

CLYNO LIGHT

The Luminous Touch of Authentic Stone.

Suitable Environments

- Wellness Centers & Spas: The soft, light grey palette fosters a calm, serene atmosphere essential for relaxation and healing environments.
- Floor-to-Ceiling Wall Cladding: The expansive 120x270 dimensions are architecturally ideal for creating seamless, joint-free vertical surfaces in grand lobbies or feature walls.
- Luxury Retail Boutiques: The bright background opens up visual space, making interiors feel larger while providing a sophisticated, neutral canvas for products.
- Modern "Japandi" or Scandi Interiors: Perfectly suited for minimalist residential projects where the blend of natural stone texture and light tones complements warm wood and organic decor.
- Art Galleries & Museums: The understated elegance of the terrazzo pattern provides a distraction-free, high-end backdrop for art and installations.

ORVAN NIGHT

DEEP TOUCH
PRO

2 FACES

Orvan Night captures the dramatic intensity of metamorphic rock with a deep, sophisticated anthracite palette. The surface features sweeping, directional veining in lighter greys that cut through the dark background, simulating the natural stratification of slate or stone found in the earth's depths. Powered by Deep Touch Pro technology, the physical texture is perfectly synchronized with these visual veins, allowing you to feel the rugged, organic movement of the stone, turning a wall into a powerful architectural statement.

ORVAN NIGHT

The Tactile Power of Shadow and Stone.

Suitable Environments

- Statement Feature Walls: The directional pattern and dark tone make it perfect for TV walls, fireplace surrounds, or hotel reception backdrops that demand attention.
- Luxury Bathrooms: Ideal for creating a moody, high-end "dark spa" aesthetic, particularly in large walk-in showers.
- Executive Boardrooms: The serious, grounded color palette conveys stability, authority, and modern professionalism.
- High-End Retail Interiors: Excellent for jewelry or watch boutiques, where the dark background allows sparkling merchandise to pop.
- Kitchen Islands & Backsplashes: Creates a stunning, monolithic focal point in open-concept kitchens, contrasting beautifully with light cabinetry.

SIROCO BOOKMATCH

DEEP TOUCH
PRO

2 FACES

Siroco Bookmatch draws its inspiration from the warm, sweeping winds of the desert. The surface presents a soft, creamy ivory palette with gentle, fluid reliefs that mimic the ephemeral beauty of wind-sculpted sand dunes or ethereal onyx. Enhanced by Deep Touch Pro, the tactile finish captures the subtle undulations of the design, creating a sense of movement that you can feel. As a Bookmatch series, the faces are designed to mirror each other, allowing for the creation of stunning, symmetrical art pieces that serve as the focal point of any room.

2 FACES

SIROCO BOOKMATCH

The Fluid Harmony of Wind and Stone.

Suitable Environments

- Grand Feature Walls: The Bookmatch capability makes this ideal for creating a dramatic, symmetrical centerpiece in living rooms or behind a reception desk.
- Luxury Hotel Lobbies: The light, airy color palette combined with the grand 120x270 size creates a sense of immense space and sophistication.
- High-End Bathrooms: Perfect for cladding large shower walls or vanity backdrops to create a serene, spa-like sanctuary that feels organic and flowing.
- Fine Dining Restaurants: The subtle texture adds depth and elegance to the ambiance without being visually overwhelming.
- Artistic Corridors: Ideal for long hallways where the "wind-swept" movement of the pattern can guide the eye and add dynamic energy to the space.

ASH ANTHRACITE

3D SURFACE
MATT CARVING

4 FACES

Ash Anthracite exudes the raw, elemental power of volcanic stone and charred earth. The surface features a deep, saturated charcoal tone intersected by fine, directional scratches and lighter geological veins, reminiscent of natural slate or weathered basalt. Engineered with Deep Touch Pro, the "3D Surface" technology ensures that every visual striation is matched by physical texture, offering a rugged, authentic tactile experience that defines modern industrial luxury.

zigma
ENGINEERED SURFACES

ASH ANTHRACITE

The Uncompromising Depth of Elemental Stone.

Suitable Environments

- Executive Office Suites: The commanding dark tones communicate authority, stability, and serious professionalism, ideal for boardrooms or CEO offices.
- Industrial-Chic Lofts: Perfectly complements exposed brick, metal beams, and leather furniture by adding a sleek, modern layer of "dark matter."
- Moody Lounge Bars & Nightclubs: The low-light reflection and deep color create an intimate, sophisticated atmosphere.
- High-Contrast Feature Walls: Use it behind a light-colored sofa or artwork to create a dramatic focal point that pops.
- Luxury Bathroom Cladding: Creates a "dark spa" aesthetic that feels private, enclosed, and incredibly high-end, especially when paired with warm accent lighting.

ASH GRAY

3D SURFACE
MATT CARVING

4 FACES

Ash Gray represents the sophisticated evolution of industrial design, shifting from dark, raw elements to a lighter, more ethereal aesthetic. The surface features a pale, silvery-grey palette with subtle, directional striations that resemble brushed concrete or weathered limestone. Enhanced by Matt Carving and 3D Surface technology, the texture is not just visual but tactile, allowing light to play across the fine reliefs. It captures the urban soul of industrial architecture but refines it into a bright, airy finish suitable for contemporary minimalism.

MATT CARVING

4 FACES

ASH GRAY

The Luminous Texture of Modern Industrialism

Suitable Environments

- Minimalist Kitchens: The light grey tone is perfect for countertops or backsplashes, offering a clean, hygienic look that hides water spots better than polished surfaces.
- Art Galleries & Creative Studios: The neutral, bright background provides a texture-rich canvas that doesn't distract from the art or work being displayed.
- Modern Bathrooms: Creates a serene, spa-like atmosphere with a touch of structural character, avoiding the sterility of plain white tiles.
- Tech Office Lobbies: Conveying a sense of innovation and clarity, the directional pattern adds dynamic energy to large open spaces.
- Fashion Retail Stores: A chic, understated backdrop that allows clothing collections to stand out while maintaining a high-end architectural feel.

ASH IVORY

3D SURFACE
MATT CARVING

4 FACES

Ash Ivory softens the raw edge of industrial design with a gentle, warming touch. The surface presents a creamy, off-white background infused with delicate, directional veining that echoes the texture of travertine or bleached limestone. Engineered with Matt Carving and 3D Surface technology, the slab offers a refined tactile experience where the physical relief aligns with the visual pattern. It bridges the gap between rugged durability and soft elegance, making it the ideal foundation for interiors that seek to be both modern and inviting.

ENGINEERED SURFACES

ASH IVORY

The Gentle Warmth of Contemporary Stone.

Suitable Environments

- Scandi & Japandi Interiors: The warm, neutral ivory tone perfectly complements the light wood and organic textures typical of Nordic and Japanese-minimalist styles.
- Small or Dark Spaces: Its high brightness and light reflectivity help expand visually small rooms or brighten areas with limited natural light.
- Luxury Spas & Salons: Creates a clean, hygienic, and calming environment essential for wellness spaces, feeling less sterile than pure white.
- Boutique Hotels: ideal for guest rooms to create a cozy, "home away from home" feeling while maintaining high durability.
- Kitchen Countertops & Islands: Provides a soft, elegant alternative to cold grey concrete or busy marble, offering a clean backdrop for culinary activities.

BRISSA MARINA

ULTRA GLOSSY

4 FACES

Brissa Marina captures the ethereal beauty of a coastal breeze and the fluid movement of calm waters. The surface presents a pristine, crystalline white background traversed by faint, sweeping grey veins that mimic the gentle flow of sea foam or fine Statuario marble. Engineered with Matt Carving and 3D Surface technology, the delicate veins are not just visible but palpable, etched softly into the surface to create a texture that feels as natural and serene as the organic stone it interprets. It brings a breath of fresh air and timeless purity to any interior.

CRYSTAL

ULTRA GLOSSY

2 FACES

Crystal captures the mesmerizing depth of natural quartzite and the pristine clarity of glacial ice. The surface creates a complex tapestry of mineral fragments and crystalline structures, appearing as if layers of crushed stone have been fused together over millennia. Unlike standard marble, this design offers a multi-dimensional look where the visual texture seems to recede into the slab. Finished with an Ultra Glossy glaze, the surface reflects light prismatically, enhancing the perception of depth and bringing a sense of pure, luminous luxury to any space.

zigma

URBAN MIST WHITE

SOFT MATT

4 FACES

Urban Mist White is a refined expression of calm minimalism, inspired by the quiet atmosphere of early morning mist settling over natural stone. The surface captures a soft, diffused aesthetic where purity and subtle texture coexist in perfect balance.
Its delicate mineral speckling, gently dispersed across a clean white base, evokes the depth of natural quartzite and finely weathered stone. The micro-granular details introduce a sense of movement without visual noise, allowing the design to remain serene yet visually engaging. Each face within the collection maintains a cohesive identity while offering slight natural variations, enhancing authenticity and architectural continuity.

zigma

DOLCE VITA

ULTRA GLOSSY

4 FACES

Dolce Vita embodies the romantic soul of the Italian "sweet life," offering a surface of unparalleled softness and grace. The design features a creamy, milky-white background caressed by whisper-thin, wandering grey veins that fade in and out like distant clouds. Unlike the bold, dramatic strokes of Calacatta, this surface favors a gentle, ethereal aesthetic. Finished with an Ultra Glossy glaze, it reflects light with a liquid-like shine, creating a serene and expansive atmosphere that feels effortless and inviting.

zigma

ETERNAL BLACK

ULTRA GLOSSY

4 FACES

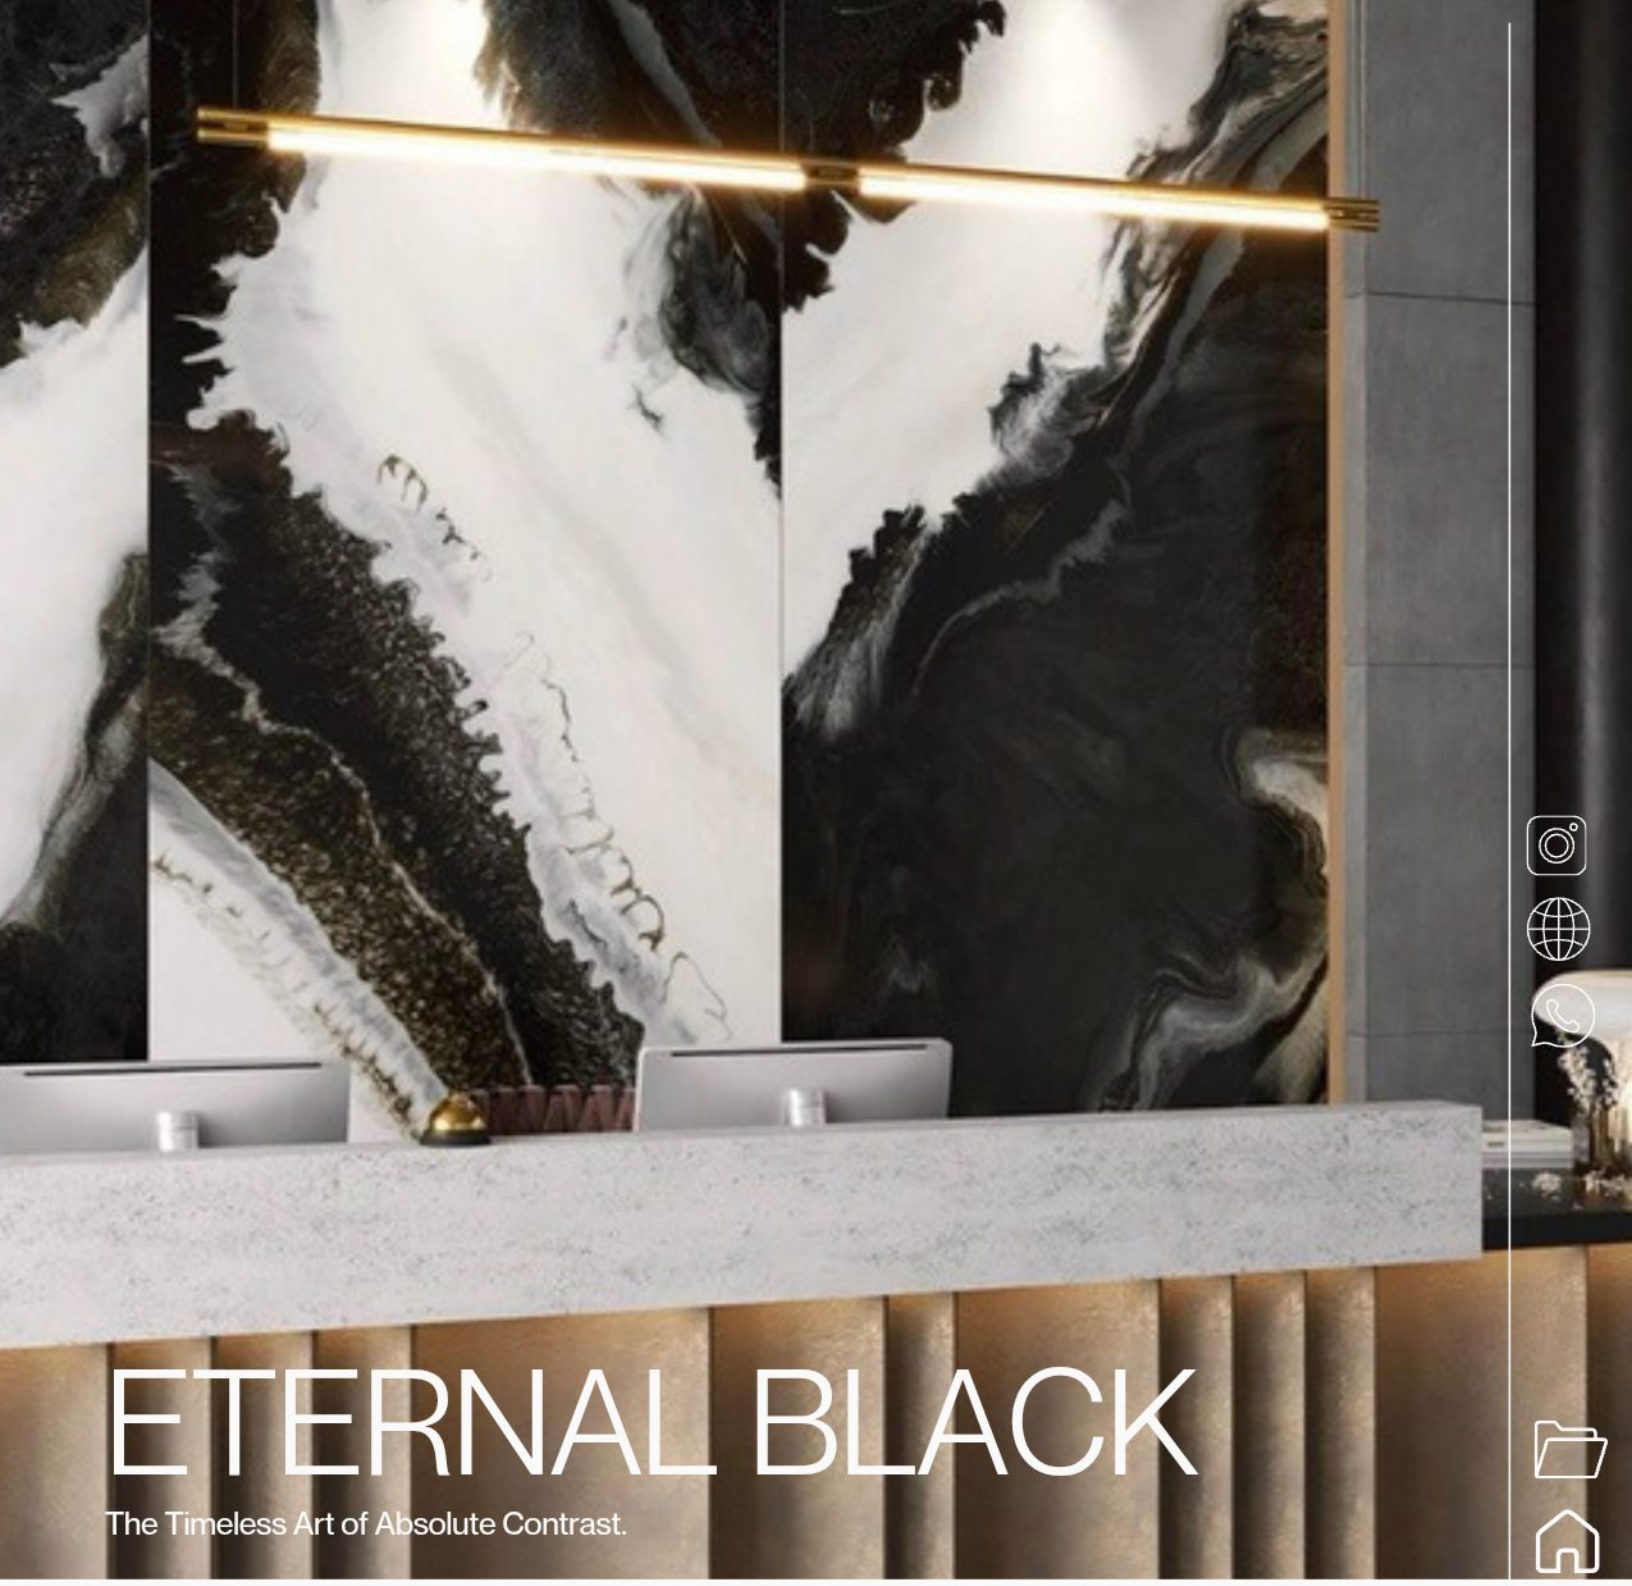

Eternal Black is a masterpiece of monochromatic contrast, drawing inspiration from the rare and dramatic "Panda" marble. The surface functions as an artistic canvas where brilliant, milky white fields are framed and intersected by bold, flowing waves of deep velvet black. It feels less like a static stone and more like fluid ink frozen in time. Finished with an Ultra Glossy glaze, the contrast is sharpened to perfection, creating a mirror-like depth that makes the black sections feel infinite and the white sections luminous. It is the ultimate choice for those seeking to make an unforgettable architectural statement.

zigma
ENGINEERED SURFACES

ETERNAL BLACK

ULTRA GLOSSY
4 FACES

ETERNAL BLACK

The Timeless Art of Absolute Contrast.

Suitable Environments

- Artistic Feature Walls: The bold pattern acts as a natural mural, perfect for living rooms or gallery spaces where the wall itself is the art.
- Grand Hotel Lobbies: When installed, especially in a bookmatch layout, it creates a stunning, kaleidoscope-like centerpiece for entrances.
- Luxury Master Bathrooms: Creates a high-impact, boutique hotel aesthetic, particularly effective in large walk-in showers or behind a freestanding tub.
- High-End Fashion Retail: The stark black-and-white palette is synonymous with high fashion, providing a chic backdrop for colorful merchandise.
- Modern Kitchen Islands: Wraps kitchen islands in a "waterfall" style to create a dramatic, sculptural focal point in the home.

SOFT MATT

4 FACES

Foggy Light Gray interprets the intangible beauty of morning mist and atmospheric depth. The surface features a soft, cloud-like grey palette with gentle, diffuse tonal shifts that mimic the tranquility of an overcast sky or smoothed concrete. Unlike the raw industrial look of other grey slabs, this design focuses on softness and fluidity. Finished with a specialized Soft Matt glaze, it offers a velvety touch that absorbs light rather than reflecting it, creating a space of profound calm and contemporary minimalism.

SOFT MATT

4 FACES

FOGGY LIGHT GRAY

The Quiet Embrace of Morning Mist.

Suitable Environments

- Minimalist Living Rooms: The subtle, non-intrusive pattern provides a perfect neutral canvas for modern furniture and colorful art.
- Spa & Meditation Spaces: The soft, matte finish and calming grey tone reduce visual noise, fostering deep relaxation.
- Modern Workspaces: Ideal for creative studios or offices where a clean, distraction-free environment is required for focus.
- Boutique Fitting Rooms: The flattering, soft lighting effect created by the matte surface enhances the customer experience.
- Bathroom Wall Cladding: Creates a seamless, cloud-like envelope that feels hygienic, airy, and expansive.

GAIA

STYLISH

1 FACE

Gaia brings the timeless beauty of a renaissance fresco into the modern era. The design features a lush, artistic botanical pattern composed of large-scale floral motifs in soft greys, whites, and warm ochre tones. The visual texture mimics a delicate mosaic or pointillist painting, adding a contemporary artistic twist to a classic subject. Finished with a Soft Matt glaze, the surface feels velvety and non-reflective, allowing the intricate details of the flowers to stand out without glare, transforming walls into immersive vertical gardens that celebrate the earth's beauty.

HERITAGE

STYLISH

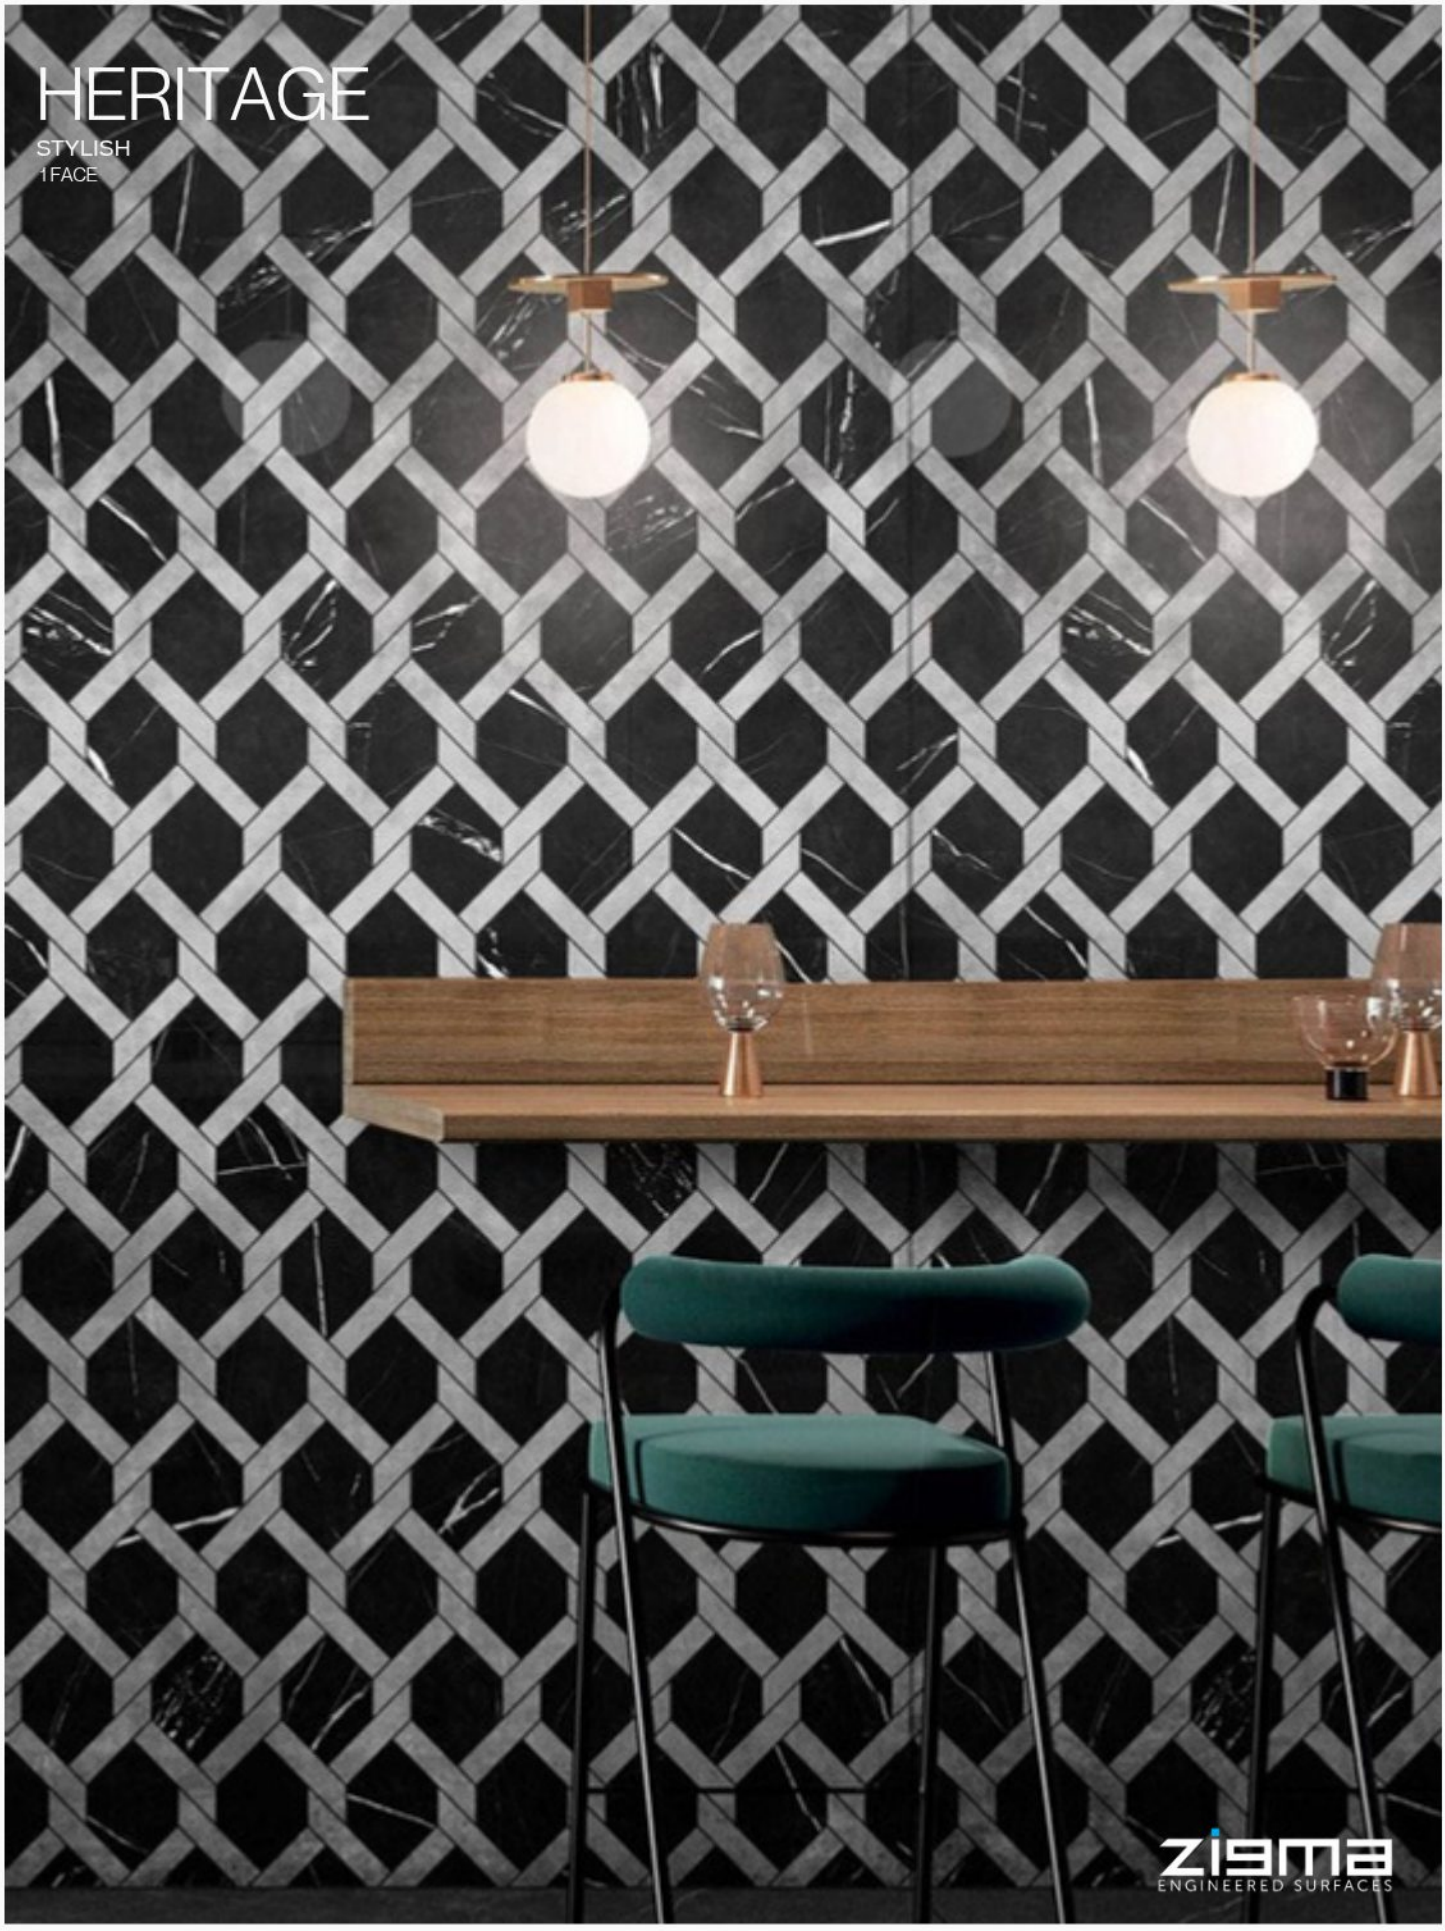

1 FACE

Heritage redefines the boundaries of surface design by fusing the organic opulence of natural stone with the precision of architectural geometry. The design features a rich, deep black marble background—reminiscent of Nero Marquina with its sharp white veining—overlaid with a striking, interlocking lattice pattern in cool grey. This graphic layering creates a sophisticated 3D optical illusion, appearing like intricate stone marquetry or a woven architectural tapestry. It transforms a static surface into a rhythmic, decorative statement that bridges the gap between traditional luxury and modern graphic style.

MAGNEFICO

ULTRA GLOSSY

4 FACES

Magnefico is the embodiment of nocturnal elegance and commanding power. Inspired by the prestigious Nero Marquina marble, the surface presents a deep, velvety black background that serves as a void of infinite depth. Cutting through this darkness are sharp, electric white veins that strike across the slab like lightning in a night sky. This high-contrast interplay creates a visual tension that is both classic and intensely modern. Finished with an Ultra Glossy glaze, the surface achieves a mirror-like perfection, reflecting light to amplify the dramatic presence of the stone in any interior.

PIETRA LIGHT GRAY

The Quiet Grace of Honed Silver.

Suitable Environments

- Large-Format Flooring: The matte finish is practical for main living areas, offering a sophisticated look that hides footprints and reduces glare better than high-gloss options.
- Minimalist Bathrooms: Creates a serene, spa-like sanctuary where the focus is on texture and relaxation.
- Modern Kitchen Worktops: The non-reflective surface creates a seamless, monolithic look that pairs beautifully with matte cabinetry.
- Art Gallery Walls: Provides a sophisticated, neutral backdrop that adds texture without competing with the artwork via reflections.
- Bedroom Feature Walls: The soft, light-absorbing finish contributes to a restful, cozy atmosphere essential for sleeping quarters.

SILK MEGA WHITE

SOFT MATT

1 FACES

Silk Mega White is the ultimate expression of minimalist purity. Stripped of veins, grains, or distractions, the surface presents a solid, uniform expanse of warm, creamy white. It captures the essence of a blank canvas, offering a sense of infinite potential and calm. Finished with a Soft Matt glaze, the slab feels velvety to the touch and absorbs light rather than reflects it, eliminating glare and creating a soft, diffuse glow that makes spaces feel airy, expansive, and impeccably clean.It is the foundational element for contemporary design,allowing architecture and furniture to take center stage.

SILK MEGA WHITE

The Pure Canvas of Infinite Calm.

Suitable Environments

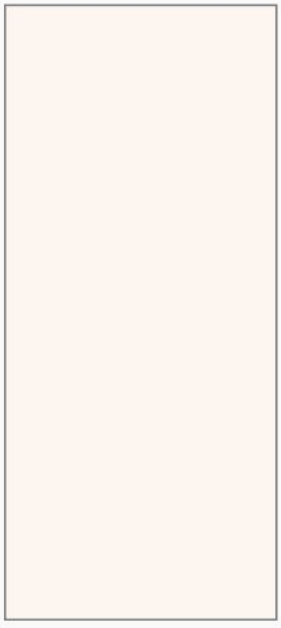

- Minimalist Architecture: The perfect "invisible" background allows that architectural forms and light to define the space.
- Art Gallery Interiors: Provides a distraction-free, museum-quality backdrop that ensures artwork remains the focal point.
- Scandanavian Kitchens: The matte, warm white tone pairs beautifully with light woods and matte black fixtures.
- Luxury Spa & Clinic Walls: Conveys a sense of absolute hygiene and sterility without feeling cold or clinical, thanks to the soft finish.
- Ceiling Cladding: Use 120x270 slabs on ceilings to create a seamless, monolithic look that heightens the room visually.

SILK OFF IVORY

SOFT MATT

1 FACES

Silk Off Ivory offers a warmer, more inviting alternative to the clinical starkness of pure white. The surface presents a solid, uniform hue of pale ivory-gray, capturing the subtle elegance of raw silk or unbleached cotton. It provides a neutral foundation that feels organic and cozy rather than cold. Finished with a Soft Matt glaze, the slab has a velvety texture that diffuses light softly, creating a sense of calm and understated luxury. It is designed to be the quiet, supportive backdrop that ties a room together, harmonizing with both cool and warm color palettes.

SILK TEAL

SOFT MATT

1 FACES

Silk Teal is a bold plunge into the depths of color psychology, merging the tranquility of blue with the revitalizing energy of green. The surface presents a solid, saturated teal hue that evokes the mystery of deep ocean waters or the shadows of a dense forest. Unlike neutral stones, this design is an intentional statement of personality and mood. Finished with a Soft Matt glaze, the color feels deep and velvety rather than shiny, resembling a heavy, luxurious fabric draped across the wall. It transforms spaces from ordinary to exotic, offering a sophisticated alternative to standard grays and whites.

SNOW BLUE

ULTRA GLOSSY

4 FACES

Snow Blue captures the enigmatic beauty of frozen aquatic caves and deep-sea geodes. The surface presents a complex, multi-layered landscape of deep indigo, midnight blue, and icy gray. It features striking concentric rings and geode-like formations that suggest millions of years of mineral crystallization. Fractured veins of crystalline white cut through the darkness like cracks in a frozen lake, adding immense depth and structure. Finished with an Ultra Glossy glaze, the surface mimics the translucent polish of blue onyx or agate, creating a mesmerizing, jewel-like focal point that feels cool to the touch and visually infinite.
